Mass.

get Bro. Allen for an agent. He will be a  
lost. Don't fail to get him into the field).

All our brethren here are specially anxious  
you should go ahead abolitionally, & make your  
movement felt on the State.

I shall write to Whittier & say a  
word to him - still, I think you had  
better send him an age of your own.

Don't fail to send us an account of  
your meeting by Monday.

Weld has had another long talk with S. Smith.  
S. is fully satisfied that those who can't vote can't  
petition - he is very much further from being a  
non-resistant than when he came to the Anniversaries.  
Dr. is strong in the faith that Smith will come at  
night.

the Watchman. Johnson will do the same,  
I no doubt Leavitt. - Would it not be  
well for you to send a statement to Knapp  
to Goodell, to Whittier, & Burleigh, & to  
Bailey, so as to foretell any misrepresentations  
from the other side? It will much  
more than pay for the trouble, I assure  
you.

I wish this mainly to you. That fund and  
thinks you can procure no Storrs for  
and Agent. Storrs will work for you  
thoroughly if he comes, & will be a good  
agent. No Storrs will be at the N. E.  
Conference, which sits in Boston next  
week, probably. That will be a good time  
to see several Methodists, & get their names.

I hope you will see all the docu-  
ments which your Com. put out, before  
they go to press.

I shall see the Mem. Jaffray  
today or Monday, & get them to write to their  
brothers to help you in the way of funds.

Well is very anxious you should

Dear Brother, I wish you to write a word or two in regard to your matters & things in East. I have not been able to see many of our folks here; but all those with whom I have conversed fully approve of your doings in the organization of your New Society. Weld says you have taken the right ground, & he cautions you to maintain it & go ahead. Little Sunderland & Little Benedict.

Our folks will maintain all the ground they have taken in their address to the abolitionists - & a majority of the Committee are prepared to go further. We Contd have got through the Committee a strong document on the woman's rights question i.e. a majority would have gone for it, but we thought it best to put forth now only what all would assent to.

Weld & Sunderland think of rights reply to the address the Man. Board is an fait. Weld speaks of it as "grand."

There is no doubt that our Com. will recognize your Socy as auxiliary in the fullest sense.

I wish you not to fail to send on by Monday, Boast an account of your organization, such as we talked of. Sunderland will endorse it strongly, in
